HIGH CONCEPT

CHAOTIC DUO is a 3D local multiplayer car game in which the two players will have different abilities to play with and try to kill each other.

GENRE

Chaotic Duo is a third person car racing game.

PLATFORM

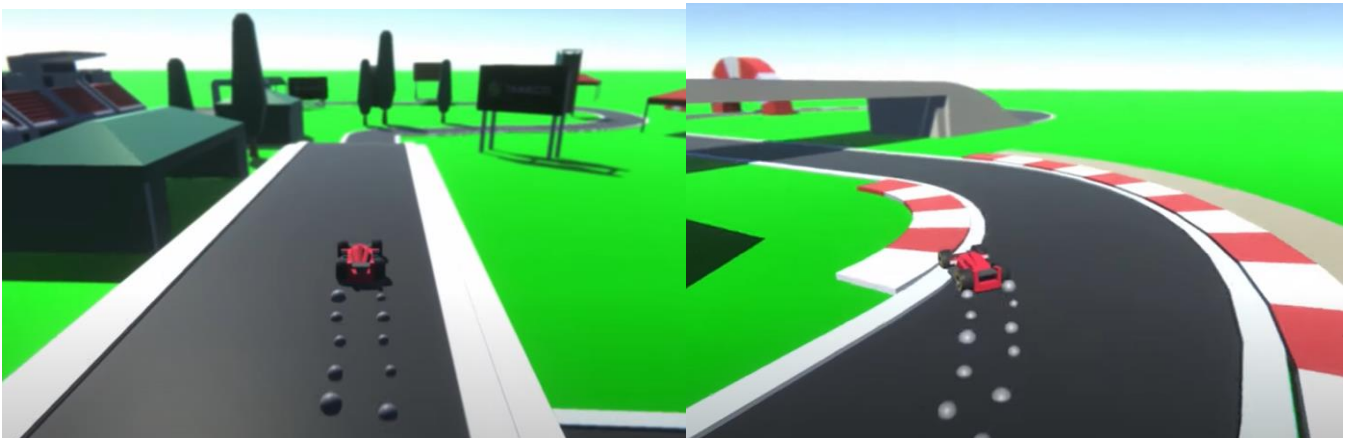

Windows, MAC OS, LINUX.

ENGINE

Unity engine.

GAMEPLAY

This will be a fast paced third person car game. There will be a police car & a thief car who will try to kill each other using one of the three randomized abilities each player has, like speed boost, bullets, jump etc. The game will be set in different environments like forest, prison, city, and park. The map changes after one car kills the other to next environment.

ART STYLE

The game will be in low poly graphics with bright colors. There will be different maps to play in like streets, prison, park and school.

MONETIZATION

There will be two versions of the game. One will be freemium with ads after each round and a premium version without ads.

COMPETITIVE ANALYSIS

Chaotic duo will look somewhat similar to rocket league but with its own unique mechanics and fun gameplay.
